Past Participants Say...

I enjoyed the variety of information, available resources, talking and sharing with other parents who have some of the same issues/challenges.

The best part was the honesty, intimacy and sincerity shared by presenters and attendees.

This event was very professional, thoughtful and useful.

I will use the resources and information to help support my daughter and to share with her team at school.

The things that I learned today I will be able to use for many years to come.

I was very impressed with the way it was run and how smoothly the conference was conducted.

Anyone who has a child or works with a child that has hearing loss should come to this conference.

The best part of the conference was meeting other parents and professionals who get what my child and I are going through!

It was great meeting other parents in my area!

The people/agencies that put this conference together made it very easy to understand it all.
